Letter of Transmittal

City of Hampton

November 30, 2011

Honorable Mayor, Members of the City Council,
City Manager and the Citizens of the City of Hampton
Hampton, Virginia

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Hampton, Virginia (the City) for the fiscal year ended June 30, 2011. State law requires the City to publish, at the close of each fiscal year, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with Government Auditing Standards by a firm of licensed certified public accountants. This report has been prepared by the Department of Finance and the report does comply with state law and guidelines and of the Auditor of Public Accounts of the Commonwealth of Virginia.

The City's Management assumes full responsibility for the accuracy, completeness, and reliability of all information presented in this report. We believe the data, as presented, are accurate in all material respects and is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included. In order to provide reasonable, but not absolute, assurance regarding the data, the management of the City has designed a framework of internal accounting controls to protect the City's assets from loss of unauthorized use or disposition, provide reliability of financial records for preparing financial statements and maintain the accountability for assets.

The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and that the evaluation of costs and benefits requires estimates and judgments by management. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

State law requires that the financial statements of the City be audited by a certified public accountant. Cherry, Bekaert & Holland, L.L.P., Certified Public Accountants have audited the City's financial statements. As a result of an audit of the City's financial records and transactions of all funds, component units and departments of the City, Cherry, Bekaert & Holland, L.L.P has concluded that the financial statements are in compliance with generally accepted accounting principles and have issued an unqualified opinion on the City of

Hampton's financial statements for the year ended June 30, 2011. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the City

Background

The City of Hampton, Virginia, settled in 1610, is the oldest English-speaking community in continuous existence in the United States. The City was incorporated on March 30, 1908 and has operated under its existing charter since December 16, 1952. Its boundaries were extended on July 1, 1952 through the annexation of Elizabeth City County and Phoebus. The City is comprised of 72 square miles, including 54.7 square miles of land and 17.3 square miles of water. Hampton is situated at the extreme southeastern tip of the Lower Peninsula of Virginia. It is bounded on the west by the City of Newport News, on the north by York County and the City of Poquoson, on the east by the Chesapeake Bay and on the south by the Harbors of Hampton Roads. Hampton is part of the Norfolk-Virginia Beach-Newport News Metropolitan Statistical Area (MSA).

As of the April 1, 2010 census, population in Hampton was 137,436. This indicates a decrease in population of 5.05% or 7,313 from the July 1, 2009 estimate of 144,749.

Hampton is an independent, full-service City with sole local government taxing authority within its boundaries. It is empowered by state statute to levy property taxes on real and personal property located within its boundaries. The governing body of the City is an elected City Council composed of a mayor and six (6) council members. The Mayor and City Council members are elected for four (4) year terms in general elections held every two (2) years. The City Council appoints the City Manager who acts as the Chief Executive Officer of the government. The City Manager serves at the pleasure of the Council and is charged with the responsibility of carrying out their policies, directing business procedures, and appointing and removing all department heads and city employees.

As a full-service city, Hampton provides a broad range of municipal services to its citizens. Those services include public safety, education, public works, refuse-collection, recreation, building inspection, public health, social services, planning, community development, etc. The City of Hampton and its citizens purchase their water and sewer service directly from Newport News Waterworks and Hampton Roads Sanitation District, respectively.

During 2011, several awards and recognitions were received by the City of Hampton. They are listed below:

- Over the past year The City of Hampton has been recognized for its budget input process, the “I Value” Campaign. The City of Hampton received the 2010 Governor’s Technology Award for Innovation in Local Government for the use of audience polling technology during the citizen budget engagement process along with the City-County Communications and Marketing Association’s (3CMA) Savvy award in “Citizen Participation and Community Visioning”. The City also won the 2011 Thomas H. Muehlenbeck Award for Excellence in Local Government given by Alliance for Innovation. This award, given annually to a local government, is based on successfully and creatively addressing a public service dilemma.
- Hampton has been recognized by the state, nation and world for the input opportunities the City provides its citizens. Hampton gained international attention for its civic engagement efforts. The City placed fourth in the 2011 Reinhard Mohn Prize, presented by The Bertelsmann Foundation, the largest private non-profit foundation in Germany. Hampton was one of only two finalists from the U.S.
- For the ninth year in a row, Hampton was named one of the most technology-advanced cities in America by the Center for Digital Government. The annual study examines how city governments are using digital technologies “to create a seamless environment between local government and constituents.” The City of Hampton ranked 5th in its population category of 125,000-249,999.
- Hampton received the 2011 Donald E. Hunter Excellence in Economic Development Planning Award from the Economic Development Division of the American Planning Association for the development of the Peninsula Town Center. This award is given to a community that shows innovation and success with an economic development plan or project within the last 10 years.

Budgetary Systems

The annual budget serves as the foundation for the City of Hampton’s financial planning and control functions. The City must appropriate funds for both the City and school system operation in accordance with state law. The appropriated budget is prepared by fund, function, (e.g. public safety) and department (e.g. fire). The City Manager is authorized to transfer budgeted amounts within the General Fund; however, revisions that alter the total appropriations for a department must be approved by City Council. Transfers within the School Operating Fund are under the control of the School Board.

Component Units

The financial reporting entity includes all funds of the primary government (the City), as well as its component units. Component units are legally separate entities for which the City is financially accountable for and provides operating and capital funding. Their economic resources are either significant to the City or will impose a financial burden on the City. In

accordance with GASB 14 and GASB 39, the City has included the financial data of six discrete component units which are legally separate entities: Hampton City School Board, Industrial Development Authority (IDA), Healthy Families Partnership, Inc., Coliseum Central Business Improvement District, Inc., Downtown Hampton Development Partnership, Inc., and Foundation of the Virginia Air and Space Center.

Economic Conditions and Outlook

Local Economy

The City's central location in the Norfolk-Virginia Beach-Newport News, Metropolitan Statistical Area ("MSA") affords its businesses the ability to take advantage of resources offered throughout the area. Hampton's many business amenities have attracted a long list of prosperous and well-known national and international companies. Manufacturing, technology, retail services, distribution and federal installations comprise the major components of economic activity within the City.

The City's strategic location and economic development activities offer its residential civilian labor force a wide range of employment opportunities. Hampton businesses draw from the largest regional workforce between Washington, D.C. and Atlanta, with over 838,000 highly educated, skilled, and technically trained workers. Each year over 13,000 trained and disciplined personnel exit the military. Many of these persons elect to stay in the area and look for private sector employment. In addition, there are approximately 30,000 military spouses available to work.

The effects of the economic downturn are still evidenced in the national, state and local economy. Housing values in the Norfolk-Virginia Beach-Newport News MSA showed an average decrease of 0.05%. The City's unemployment rate is currently at 8.0%. This percentage is below the national rate of 9.3%.

The assessed value of the City's residential and commercial real property decreased by \$245.4 million or 2.10% from fiscal year 2010 to fiscal year 2011.

Assessed Value of Taxable Real Property In Thousands

Economic Development

The City is home to two institutions of higher education: Hampton University and Thomas Nelson Community College. *Hampton University* has been educating scholars and leaders for over 140 years. Hampton University provides a broad range of technical, liberal arts, pre-professional, professional, and graduate degree programs and has over 6,000 students enrolled. It is located in Hampton Virginia's downtown area on the waterfront. The University is ranked 32 among the top southern universities in the regional university category of the *2011 U.S. News and World Report - Best Colleges* rankings.

Thomas Nelson Community College offers planning and strategic partnerships with economic development entities on the Virginia Peninsula. Services include targeted workforce development, strategic planning, joint grant opportunities, pre-employment training, employer/industry customized training programs and availability of fully equipped training facilities including classrooms, labs, and flexible manufacturing and industrial training spaces. Old Dominion University's Peninsula Higher Education Center has combined with Thomas Nelson Community College to promote the advancement of knowledge here on the Peninsula. It is a state-of-the-art academic facility designed to support a wide array of graduate and undergraduate programs that meet the needs of the local community. Its location makes it convenient for residents to complete their bachelor degrees and for health and other professionals to complete their education through the doctorate level.

The Peninsula Center offers 24 undergraduate and 25 graduate programs with over 200 classes scheduled each week.

The Department of Economic Development has a Business Development Team whose primary goals are to retain and expand businesses in the city of Hampton; they also specialize in new and entrepreneur developments. During fiscal year 2011, this team was involved in 11 commercial projects totaling \$19.7 million in private investment, creating 210 new jobs and retaining 633 jobs within the office, manufacturing and warehouse sectors. A summary of some of the commercial activity/development that has occurred during fiscal year 2011 is as follows:

Bay Recycling purchased 310 E Street which consist of 74,434 square foot and will construct an additional 30,000 square foot for a total of 104,434 square foot in Copeland Industrial Park. The company will create 65 new jobs. Its investment is estimated to be \$14.5 million.

TRG Customer Solutions, leased approximately 32,000 square foot in Hampton Roads Center South and created 120 new jobs. This project resulted in retaining 428 jobs in the City and an investment of \$3 million.

FoodBank of the Virginia Peninsula built a new office/distribution facility in the Copeland Industrial Park which was announced in FY2010. In FY2011, its investment increased by an additional \$900,000.

VA Medical Administrative Center leased 10,000 square foot in the Peninsula Town Center's Claiborne Building. The investment was \$1.33 million.

Specialty Foods Group leased 9,100 square foot at Lakefront Plaza in Hampton Roads Center South and brought 25 new jobs to the City of Hampton.

Military and Federal Research Facility

Langley Air Force Base is the oldest continuously active air base in the United States and headquarters for the Air Combat Command. It is also home to the U.S. Air Force's First Fighter Wing. Covering 2,900 acres, Langley has more than 9,400 military personnel and approximately 1,600 civilian employees with a combined payroll of over \$622 million.

The National Aeronautics and Space Administration's NASA Langley Research Center is located in Hampton adjacent to Langley Air Force Base. The Center is an important national resource serving inherent government functions such as safety, national defense, environment and the air transportation system. The Center has approximately 3,700 civil service and contract employees. The Virginia Air and Space Center, located in downtown Hampton, serves as the official welcome center for NASA Langley.

General Government Financial Operations

All general governmental operations are accounted for in the General, Special Revenue, Capital Projects and Debt Service Funds. Substantially all recurring revenues and expenditures are accounted for in the General Fund and the School Operating Fund (included in the Discretely Presented Component Unit-School Board financial statements).

Total revenues, expenditures, and other financing sources and uses, for the General and School Operating Funds are as follows:

<u>000's Omitted</u>			
	<u>2011</u>	<u>2010</u>	<u>Percent Increase (Decrease)</u>
<u>Revenues and Other Financing Sources:</u>			
General Fund	\$ 295,128*	\$ 291,344*	1.30
School Operating	<u>120,875*</u>	<u>136,005*</u>	<u>(11.12)</u>
Total	<u>416,003</u>	<u>427,349</u>	<u>(2.61)</u>
<u>Expenditures and Other Financing Uses:</u>			
General Fund	227,417*	221,183*	2.82
School Operating	<u>189,823*</u>	<u>202,628*</u>	<u>(6.32)</u>
Total	<u>417,240</u>	<u>423,811</u>	<u>(1.55)</u>
Increase/(Decrease) to fund balance	<u>\$ (1,237)</u>	<u>\$3,538</u>	

*Excludes payments between the General Fund and School Operating Fund.

The General Fund revenues and other financing sources increased approximately \$4 million or 1.30% over fiscal year 2010 revenues. This was due to a \$1.7 million increase in communications sales taxes. The increase is also attributable to a \$.9 million increase in meal and \$.2 million increase in sales taxes due to the first full year of the Peninsula Town Center being opened. Landfill host fees also increased \$.4 million due to an increase in rates and tonnage deposited at the landfill.

The School Operating Fund revenues decreased approximately \$15.1 million or 11.12% over fiscal year 2010. This was attributable to a \$12.6 million decrease in state revenues relating to funding reductions made by the General Assembly. Federal revenues decreased approximately \$3.1 million due to reductions in the American Recovery and Reinvestment Act State Fiscal Stabilization funds over fiscal year 2010.

General Fund expenditures increased by \$6.2 million or 2.82% over fiscal year 2010. This was due to transfers to the Capital Project and Debt Service funds. Transfers to the Debt Service Fund increased by \$2.2 million due to interest that was due on general obligation public improvement and refunding bonds issued in 2010. Transfers to the Capital Projects Fund increased by \$6.1 million due to an increase in expenditures in City funded capital projects.

The School Board Operating Fund expenditures decreased \$12.9 million over fiscal year 2010. This was attributed to the reduction of State revenues.

The graphs of the 2011 General Fund and School Operating Fund revenues and expenditures are as follows:

Revenues \$416,002,354

Expenditures \$417,240,351

Long Term Financial Planning

In the years 2011-2015, there is a total of \$160.5 million that is scheduled for City and School projects. The following summarizes these projects:

• School Construction/Maintenance	\$52.3 million
• New Circuit Court Building	29.0 million
• Maintenance of Public Properties	27.9 million
• Street Resurfacing	23.2 million
• Public Safety	7.6 million
• Neighborhood Support	7.0 million
• North King/Coliseum Central Master Plan	6.7 million
• Strategic Property Acquisitions/Contingency	5.5 million
• Retail/Shopping Center Revitalization	.9 million
• Salt Ponds Channel Dredging	.4 million

Financial Policies

In April 2007, the City Council amended its existing financial policies. The financial policies relate to general operating elements of the City. These policies are used as financial planning parameters during the annual budget process. The five (5) financial policies and the actual results are summarized below:

1. Debt Policy Limit. (a) General obligation debt shall not exceed 3% of the assessed value of all real estate within the City subject to taxation. At June 30, 2011, general obligation debt totaled \$279 million or 2.4 % of taxable real estate value, which was within the policy parameter.

(b) General obligation bonded debt together with indirect debt, which includes certain revenue backed debt and subject-to-appropriation or moral obligation commitments, and debt of certain special purpose entities (i.e. Community Development Authority) shall not exceed 4.5% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2011, this would amount to \$486 million or 3.9% of the assessed value of all taxable real and personal property which was within the policy parameter.

(c) Debt of certain special purpose entities, such as community development authorities, shall not exceed 1% of the assessed value of all real and personal property subject to taxation within the City. At June 30, 2011, this would amount to \$102 million or .8% of the assessed value of all taxable real and personal property, which was within the policy parameter.

2. Debt Service Policy Limit. General obligation bonded debt and indirect debt shall not exceed 10% of the City's total General Fund and the School Operating Fund expenditures. At June 30, 2011, this would amount to \$36 million or 8.9% of total expenditures, which was within the policy parameter.

3. General Obligation Debt Retirement Policy. The City shall retire at least 60% of the principal balance of general bonded obligation debt within 10 years of the date the debt is issued. The City will retire approximately 70% of general bonded obligation debt in FY2021 that was outstanding as of June 30, 2011.

4. Equity Funding. A minimum of 2% to 6% of general fund revenues will be applied to CIP capital projects each year. At June 30, 2011, capital expenditures were \$15 million which is 5% of General Fund revenues. Also, a minimum of 10% to 15% of CIP projects over a rolling five-year period are to be funded from general fund revenues. For the five year period, 2011 through 2015, the City plans to use 51% of General Fund revenues on CIP projects.

5. Unassigned Fund Balance. The City will maintain an unassigned General Fund balance equal to 10% of total General Fund and School Operating Fund revenues. To the extent unassigned fund balance falls below the policy, the shortfall shall be replenished over a three-year period. The unassigned fund balance at June 30, 2011 was \$50 million or 12% of actual revenues.

The City is in compliance with the Financial Policy Guidelines.

Credit Ratings

The City's credit ratings are as follows: AA+ by Standard and Poor's, Aa2 by Moody's Investor Services and AA by Fitch Rating.

Major Initiatives and Accomplishments

Fort Monroe at Old Point Comfort is a National Historic Landmark and sits on a 565 acre island at the mouth of Hampton Roads with 3 miles of beaches, bayside boardwalk, 200 acres of parks and open space and spectacular views of the Chesapeake Bay. Today Fort Monroe still stands as the largest stone fortification and moat ever constructed in North America and is complete with 174 stately historic homes, over 1 million square feet of mainly historic non-residential space, a 332 slip marina, museum, the oldest operating lighthouse on the Chesapeake Bay, tremendous telecommunications infrastructure and convenient access to Interstate-64.

Fort Monroe's greatest asset is its history. The history of Old Point Comfort extends to the very beginning of the settlement of America. Captain John Smith and the early settlers visited Old Point Comfort before establishing the Jamestown settlement in 1607. After surveying the area in 1608, Captain Smith pronounced this place a "little isle fit for a castle" and soon began the construction of Fort Algernourne in 1609 to protect the new settlement. This began a long line of fortifications on Old Point Comfort that culminated with the establishment of Fort Monroe as a response to the War of 1812, when the British sailed unencumbered to wreak havoc up the Virginia coast, culminating with the burning of Washington DC and the White house. Construction of Fort Monroe began in 1819 and was completed in 1834.

The history of African Americans and the struggle for freedom is uniquely woven into the historic fabric of this place. The first Africans were brought to Old Point Comfort as indentured servants in 1619. The seminal event of the Civil War also took place at Fort Monroe, where the war was transformed into a war for freedom on May 27, 1861, by Major General Benjamin Butler's "contraband" decision or "Fort Monroe Doctrine" where he declared that any slave who reached union lines would be considered contraband of war and not be returned to slavery.

Fort Monroe was identified for closure by the 2005 Base Realignment and Closure Commission and was closed by the Army on September 15, 2011. Since that time, the Commonwealth of Virginia and City of Hampton have been preparing for closure and reuse of the Fort to mitigate the impact of the lost economic activity from the closure. 371 of the 565 acres of the property automatically reverts to Commonwealth ownership based on deed language when it was originally conveyed to the federal government in the 1800s. The Commonwealth and Army are in negotiations over the disposition of the "non-revisionary" acres. As part of the State's partnership with the City, it was agreed that the City would receive a Payment In Lieu Of Taxes (PILOT) to cover the costs of City services that Hampton provides to state controlled property at Fort Monroe. The PILOT is based on the City's real estate tax assessment and tax rate as if it were any other private property in the City, but excludes any property owned by the federal government or used by the City.

The key priority of the City and Commonwealth has been to keep Fort Monroe a living and vibrant community throughout the transition. One of the signature efforts in this regard is to have the National Parks Service establish a unit at Fort Monroe. On November 1, 2011, President Barack Obama took action to declare 324 acres of Fort Monroe a National Monument that will be managed by the National Park Service. Studies have shown the presence of a National Park increased the value of surrounding properties approximately 20%. Coupled with the history of Fort Monroe, the presence of the national park will also generate tourism to the City. The Fort Monroe Authority has also been successfully renting out the historic homes and has attracted some commercial tenants as well. Most of the existing developed area of the Fort will be subject to the PILOT and, in essence, be added to the City's tax roles.

The Buckroe Parade of Homes is a new housing project under construction and scheduled to open in September 2011. The parade of Homes will feature seven single family homes including a charity house and one multi-family residential mansion-style home. Two of the single family homes featured in the parade are located in the adjacent East Bay development. Sale of the city-owned land for these new developments, significant streetscaping, park and other public improvements is to spur new interest in Buckroe and increase private reinvestment in this resort neighborhood.

Awards and Achievements

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to governmental units that publish an easily readable and efficiently organized comprehensive annual financial report that

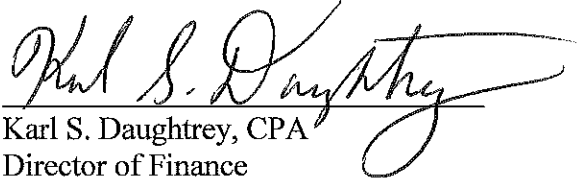

meets all generally accepted accounting principles and applicable legal requirements. The City of Hampton has received this award for its comprehensive annual financial report for the fiscal year ended June 30, 2010.

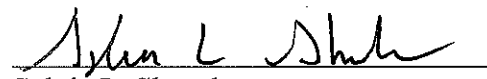

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements. This report will also be submitted to the GFOA to determine its eligibility for a certificate.

Acknowledgments

We acknowledge, with gratitude, the continued efficient and dedicated service rendered by the Finance Department staff and the assistance rendered by Cherry, Bekaert & Holland, L.L.P. in keeping us in conformity with the rapidly changing accounting interpretations and principles. We also appreciate the responsible and progressive management program administered by your office and the members of the City Council.

Respectfully submitted,

Auditor's Report

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of City Council
City of Hampton, Virginia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the City of Hampton, Virginia (the "City"), as of and for the year ended June 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Downtown Hampton Development Partnership, Inc., which represents 0.8% and 0.3%, respectively, of the total assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports have been furnished to us, and our opinions on the basic financial statements insofar as they relate to the amounts included for Downtown Hampton Development Partnership, Inc., are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparisons for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Notes 1 and 15 to the financial statements, the City of Hampton adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, during the year ended June 30, 2011.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2011, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the Schedules of Funding Progress are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual financial statements, other supporting schedules, statistical section, as well as the accompanying schedule of expenditures of federal awards as required by the US Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual financial statements, and other supporting schedules, including the schedule of expenditures of federal awards, have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical section of this report have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Hampton's (City's) Comprehensive Annual Financial Report (CAFR) presents Management's Discussion and Analysis (MD&A) of the City's financial performance during the fiscal year ended June 30, 2011. The MD&A should be read in conjunction with the transmittal letter and the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The General Fund, on a current financial resource basis, reported revenues in excess of expenditures and other financing sources and uses by \$.7 million (Exhibit A-4) after making a \$67.1 million payment to Hampton City Schools, \$14.9 million transfer to Capital Projects, \$10.4 million transfer to Enterprise Funds, \$3.3 million to Special Revenue Funds and \$29.4 million to Debt Service Fund.
- On a government-wide basis for governmental activities, the City's net assets increased by \$.4 million (Exhibit A-2).
- In the City's business-type activities, on a government-wide basis, net assets increased by \$3.9 million (Exhibit A-2).
- The City's net assets, excluding component units, on the government-wide basis, totaled \$813 million at June 30, 2011. Of this amount, \$128 million is available for spending at the government's discretion (unrestricted net assets - Exhibit A-1).

USING THE FINANCIAL SECTION OF THE COMPREHENSIVE ANNUAL FINANCIAL REPORT

The Comprehensive Annual Financial Report consists of four (4) sections: *introductory, financial, statistical and financial compliance reports for federal funds*. The financial section consists of three (3) sections: *management's discussion and analysis; basic financial statements; and supplementary information*.

GOVERNMENT-WIDE STATEMENTS

The *government-wide financial statements* are designed to provide the reader with a broad overview of the City of Hampton's finances, in a manner similar to a private-sector business. The *Statement of Net Assets* (Exhibit A-1) presents information on all of the City's assets and liabilities, reported using the full accrual basis of accounting. The *Statement of Activities* (Exhibit A-2) presents all of the City's current year's revenues and expenses, regardless of when cash is received or paid.

The two government-wide statements report the City's net assets and changes in net assets. The City's net assets, which is the difference between assets and liabilities, is one way to measure the City's overall financial health. Over time, increases or decreases in the City's net assets are one indicator of whether its financial position is improving or deteriorating. However, other non-

financial factors will need to be considered, such as changes in the City's property tax base and the condition of the City's infrastructure.

In the *Statement of Net Assets* (Exhibit A-1) and the *Statement of Activities* (Exhibit A-2), the City is divided into the following:

- Governmental activities – The City's basic municipal services are reported here, including general government, public safety, public works, human services, and culture and recreation. Property taxes, other local taxes, and state and federal grants finance most of these activities.
- Business-type activities – The City charges fees to customers to help cover all or most of the cost of certain services it provides. The City's coliseum, steam plant, golf courses, museum, convention center, sewer and trash collection operations are reported in this section.
- Component units – The City includes six separate legal entities in its report – the Hampton City School Board, Hampton Industrial Development Authority, Coliseum Central Business Improvement District, Inc., Downtown Hampton Development Partnership, Inc., Healthy Families Partnership, Inc. and Foundation of the Virginia Air and Space Center. Although legally separate, these component units are important because the City is financially accountable for providing operating and capital funding or their economic resources are either significant to the City or entirely for the benefit of the City or its constituents.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more information about the City's most significant funds – not the City as a whole. Funds are accounting units that the City uses to keep track of specific sources of funding and spending for particular purposes. The City of Hampton uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The City has three types of funds:

- Governmental funds – Most of the City's basic services are reported in governmental funds, which focus on (1) the inflows and outflows of cash and other financial assets that can readily be converted into cash and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements (Exhibits A-3, A-4 and A-5) provide a short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the future to finance the City's programs. Because this information does not address the long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statements that explains the relationship (or differences) between these statements. The city maintains eleven individual governmental funds.
- Proprietary funds – Services for which the City charges customers a fee are generally reported in proprietary funds. These funds, like the government-wide statements, provide both long- and short-term financial information. The City's enterprise funds (one type of proprietary fund) are its business-type activities, but the fund financial statements provide more detail and additional information, such as cash flow. The City maintains eight

individual enterprise funds. The City uses four internal service funds (the other type of proprietary fund) to report activities that provide supplies and services for the City's other programs and activities. These funds provide for the accumulation of money to replace capital equipment used in the City's operations, maintenance services for the City's vehicle fleet, risk management and computer and telecommunication services. The basic proprietary funds financial statements can be found in Exhibits A-6, A-7 and A-8 of this report.

- Fiduciary funds – The City is the trustee, or fiduciary, for its employees' pension plan. All of the City's fiduciary activities are reported in separate statements of fiduciary net assets and statements of changes in fiduciary net assets. The City excludes these activities from the City's government-wide statements because the City cannot use these assets to finance its operations. Agency funds are City custodial funds used to provide accountability of client monies for which the City is custodian. The basic fiduciary funds financial statements can be found in Exhibits A-9 and A-10 of this report.

FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

The City's combined net assets (which is the City's bottom line) increased by \$4.3 million in fiscal year 2011, of which approximately 4% represents resources that are subject to external restrictions. Investment in capital assets, less any related debt used to acquire those assets that are still outstanding, represents 80% of net assets. These assets are used to provide services to citizens and consequently are not available for future spending. The City's unrestricted net assets – the part of net assets that can be used to finance day-to-day operations – were \$126 million.

GOVERNMENTAL ACTIVITIES

For the fiscal year ended June 30, 2011, revenues from governmental activities totaled \$327 million. Revenues from governmental activities increased by \$7.5 million; primarily in property taxes and operating and contributions.

Property taxes, the City's largest revenue source, were \$149.8 million, an increase of \$3.5 million when compared to fiscal year 2010. This \$3.5 million is attributed to increases of \$1.3 million in real estate taxes, \$1.4 million in personal property taxes, and \$.5 million in public service taxes. The addition of a Real Estate Lien Department within the Treasurer's office and the assignment of 2 full time employees to concentrate on personal property tax collections contributed to this increase in property taxes. Program revenues are derived from the program itself and reduce the cost of the function to the City. Total program revenue for governmental activities was \$104.5 million. One of the most significant of these revenues is the revenue category "Operating Grants and Contributions". These revenues totaled \$82.5 million for the year ended June 30, 2011, an increase of \$3.1 million when compared to the previous year. This increase was primarily in the General Government area; \$3.1 million in Federal American Recovery and Reinvestment Act revenue was received for the purpose of two road projects, Mercury Boulevard resurfacing and Commander Shepard Boulevard Phase 2 right of way.

The other taxes revenue category, which includes taxes on general sales, utilities purchases, cigarettes, hotel rooms, restaurant meals, amusements, and business and automobile licenses, totaled \$69.8 million. This represents a \$1 million increase compared to the previous year primarily due to a \$.4 million increase in meal tax revenues and a \$.2 million increase in utility tax revenues.

For the fiscal year ended June 30, 2011, expenditures for governmental activities, excluding transfers, totaled \$316.5 million, a decrease of \$8 million over the previous year. The majority of this decrease is found in the interest on long-term debt category with a decrease of \$6.8 million due to costs associated with the General Obligation Public Improvement and Refunding Bonds issued in fiscal year 2010. Also, Parks and Recreation Department experienced a \$2.3 million decrease in personnel costs in fiscal year 2011 due to planned budget reductions of \$1.9 million combined with position vacancies which created \$400,000 in personnel budget savings.

BUSINESS-TYPE ACTIVITIES

Business-type activities generated revenues of \$44.2 million, a decrease of \$2.4 million when compared to the previous year. The majority of this decrease is attributed to a \$1.8 million decrease in charges for services. Expenses for the City's business-type activities totaled \$50.8 million, a decrease of \$1.7 million when compared to the previous year. The Coliseum experienced a \$1.9 million decrease in operating revenues along with a \$1.6 million decrease in expenses due to fewer events held during fiscal year 2011. The majority of revenues and expenses for the Coliseum are event driven.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

The General Fund's fund balance increased by \$.5 million over fiscal year 2011. This is primarily due to revenues exceeding the budget estimate and personnel budget savings from job vacancies.

The Capital Projects Fund reflected a decrease in fund balance of \$34.4 million due to approximately \$36 million in expenses for capital projects which were funded by the 2007 general obligation bond issue.

The Risk Management Fund showed an increase in net assets of \$.7 million. This is primarily due to a reduction in insurance claims for fiscal year 2011.

The Wastewater Fund recorded an increase in net assets of \$.9 million in fiscal year 2011. This increase is primarily due to personnel savings from job vacancies and fewer than anticipated consent order projects occurring in fiscal year 2011. The DEQ's regional consent order is designed to address sanitary sewer overflows.

The Refuse-Stream Plant's net assets increased by \$1 million due to fewer repairs than anticipated and personnel savings from job vacancies.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, the City Council revised the budget on several occasions. City Council appropriated \$13.6 million from designated fund balance to fund uncompleted projects in the Capital Projects Fund. These projects were funded from the General Fund in fiscal year 2010 but the appropriations lapsed at the end of the fiscal year. Under the City's budget savings program, the remaining budget savings of \$4 million was rolled from fiscal year 2010 to fiscal year 2011. City Council adopted a budget savings program whereby departments will retain 65 percent of their end of the fiscal year budget savings, 10 percent will be put into an innovations pool and \$415,000 will be designated for drainage projects. In addition, the City reappropriated grant, donation, and other revenues.

Actual expenditures and transfers were \$22 million below the final budget. A significant amount of this variance (\$8.7 million) occurred in the general government function, which was related to unused budget savings (\$3.2 million) under the City's budget savings program, a \$1.6 million unused fringe budget for retirement incentives and a \$.9 million unused contingency budget. A \$10 million variance was noted in transfers to other funds. The majority of this variance occurred from projects in the Capital Projects Fund that were at various stages of completion. Typically, funding for these projects is appropriated in the subsequent fiscal year.

Revenues exceeded the budget by \$2.9 million. As previously stated, real estate and personal property taxes performed better than originally anticipated.

CAPITAL ASSETS

The total increase over fiscal year 2011 in the City's investment in capital assets for the current fiscal year is \$20 million. At the end of fiscal year 2011, the City had invested \$1.0 billion in a variety of capital assets and infrastructure, as reflected in the following schedule:

In response to the current economic climate, a very conservative approach was taken in recommending capital projects for funding in the City's fiscal year 2012 capital budget. This budget sets forth \$27.6 million to be spent during fiscal year 2012 in various projects including \$5.3 million in school building maintenance, \$14.2 million in street and infrastructure projects, and \$5 million in maintenance of public properties. Additional information about the City's capital assets can be found in Note 6 to the financial statements.

LONG-TERM DEBT

At the end of fiscal year 2011, the City had \$279.4 million in outstanding general obligation bonds and \$100 million in outstanding revenue bonds. The City issued \$2.5 million in General Obligation Public School Authority Qualified School Construction Bonds, Series 2010 C to pay for the cost of lighting upgrades in the City schools. The City also issued \$52 million in Convention Center Refunding Revenue Bonds, Series 2011 to refund a portion of the City's Convention Center Revenue Bonds, Series 2002. More detailed information about the City's long-term liabilities is presented in Note 8 to the financial statements.

The Commonwealth of Virginia limits the amount of general obligation debt the City can issue to 10% of the assessed valuation of real property. As of June 30, 2011, the City's aggregate general obligation indebtedness is \$863 million below this limit.

NEXT YEAR'S BUDGET

The City's staff and City Council considered many factors when developing the fiscal year 2012 budget, with the economy as one of the major factors. The fiscal year 2012 approved budget for the General Fund is \$428.8 million, a 3.95% increase over fiscal year 2011. The City faced a reduction in current real estate tax revenues of \$2.4 million as compared to the fiscal year 2011 adopted budget based on a 2.7% residential assessment decline. The budget includes a new Home Elevation Revolving Loan Program totaling \$2.5 million for residents living in flood zones and approximately \$1 million for new firefighters and program cost for the new Fire Station 11. Taxes and fees remain constant, except for the cigarette tax is increasing from \$0.65 to \$0.75 per pack and the right-of-way fee, is increasing from \$0.76 to \$0.83 per line per month.

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities
(Exhibit A - 2) Changes in Net Assets**

Net change in fund balances - total governmental funds	\$ (33,026,611)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Loss on disposal of assets are not reported in the governmental funds but are reflected in the statement of activities.	
Capital acquisitions	34,696,980
Depreciation expense	(13,681,949)
Loss on disposal of assets	(1,207,740)
Donated assets are not reported in the governmental funds but are reflected in the statement of activities	1,822,492
Revenues earned during the period that are not yet available are reported in the Statement of Activities, but not reported as revenues in the funds.	(1,174,659)
Proceeds from bond issuance and capital leases provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.	
Debt decrease for compensated absences and net pension obligation	(37,822)
Net other postemployment benefits liability	(4,147,438)
Proceeds from debt issuance	(2,545,000)
Repayment of debt principal	18,356,975
Bond issuance costs	(73,605)
Premium on bonds	-
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net income of the internal service funds is reported with governmental activities.	432,659
Expenses incurred during the period related to liabilities that are still outstanding and not yet due at year-end for accrued interest	293,699
Amortization of premiums	<u>643,862</u>
Change in net assets of governmental activities	<u>\$ 351,843</u>

CITY OF HAMPTON, VIRGINIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

In 1610, the construction of Fort Henry and Fort Charles at the mouth of Hampton Creek marked the beginnings of Hampton. In 1619, the settlers chose an English name for the community, Elizabeth City. The settlement was known as Hampton as early as 1680, and in 1705 Hampton was recognized as a town. The City of Hampton (the City) was first incorporated in 1849 and classified as a city of the second class in 1908. In 1952 Hampton, the independent town of Phoebus and Elizabeth City County, encompassing Buckroe and Foxhill, were consolidated under one municipal government and classified as a city of the first class.

The following is a summary of the significant accounting policies.

Reporting Entity

The accompanying financial statements present the City and its component units. These statements conform to Generally Accepted Accounting Principles (GAAP) applicable to government units promulgated by the Governmental Accounting Standards Board (GASB).

The City follows GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* (GASB No. 34). As a result of adopting GASB No. 34, the Comprehensive Annual Financial Report includes Management’s Discussion and Analysis, Government-wide (Statement of Net Assets and Statement of Net Activities) Financial Statements and Budgetary Comparison Schedules.

Component Unit Disclosures

The component units discussed in the following section are included in the City's reporting entity because of the significance of their operational and financial relationship with the City, as defined in GASB No. 14, *The Reporting Entity*, and GASB No. 39, *Determining Whether Certain Organizations are Component Units*.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City, but for which the City is financially accountable, and whose relationship with the City is such that exclusion would cause the City’s financial statements to be misleading or incomplete. The discretely presented component units are: Hampton City School Board, Hampton Industrial Development Authority, Healthy Families Partnership, Inc., Coliseum Central Business Improvement District, Inc., Downtown Hampton Development Partnership, Inc., and Foundation of the Virginia Air and Space Center. They are reported as a separate column in Exhibits A-1 and A-2 and are also presented in detail in Exhibits A-11 and A-12.

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued:

Hampton City School Board

The Hampton City School Board (School Board) oversees the operations of and establishes educational policies for the City's public school system. Seven School Board members are elected by the voters of the City of Hampton. The School Board has no power to levy taxes or issue bonds. Its budget is subject to approval by the City Council; however, Council only approves, rejects, or modifies the single amount requested by the School Board. City Council does not have the authority to modify individual line items of the School Board's budget. The School Board has complete discretionary authority to expend the amount appropriated by the City. Combining statements for the School Board are presented in Exhibits G-1 through G-3. The School Board does not issue separate financial statements.

Hampton Industrial Development Authority

The Hampton Industrial Development Authority (IDA) is a public corporation established under the Industrial Development and Revenue Bond Act of the Commonwealth of Virginia, together along with ordinances adopted by the City Council. The IDA was established to promote and develop trade within the City by inducing manufacturing, industrial and commercial enterprises to locate or remain in the City. The IDA is included in the City's reporting entity because the City is able to impose its will on the IDA by appointment of the governing body. In addition, the City Council funds IDA's operating budget and receives all revenues derived from IDA land sales. Therefore, the IDA is financially dependent on the City. The IDA does not issue separate financial statements.

Healthy Families Partnership, Inc.

The Healthy Families Partnership, Inc. (HFP) is a non-stock corporation that provides programs and services that benefit families and children of the City. Programs offered by the HFP support goals which include promoting optimal child development and preventive care during early childhood; enhancing parenting skills; improving family support systems; and reducing undesirable health outcomes such as poor immunization rates, child abuse and neglect and repeat teenage pregnancies. The HFP derives financial support from the City in the form of in-kind services. HFP is included in the City's reporting entity because the resources of HFP are for the direct benefit of the City's constituents and the City can impose its will in the ability to appoint, hire, reassign, or dismiss those persons responsible for the day-to-day operations of the organization. A copy of the separately issued financial statements for HFP may be obtained by writing to HFP, 100 Old Hampton Lane, Hampton, Virginia 23669 or by calling (757) 727-1300.

Coliseum Central Business Improvement District, Inc.

The Coliseum Central Business Improvement District, Inc. (Coliseum BID) was incorporated on January 22, 1996, to promote, develop and market the Coliseum Central Business District in the City. Coliseum BID was created by action of the City Council under provisions of the *Code of Virginia*. An additional tax is assessed on commercial real estate located in the District to provide funds for the economic development of the District. The City Council approved the renewal of the Coliseum BID through June 2011. Coliseum BID is included in the City's

reporting entity because the resources of Coliseum BID are for the direct benefit of the City's constituents. A copy of the separately issued financial statements for Coliseum BID may be obtained by writing to Coliseum BID, 2021 Cunningham Drive, Suite 101, Hampton, Virginia 23666 or by calling (757) 826-6351.

Downtown Hampton Development Partnership, Inc.

The Downtown Hampton Development Partnership, Inc. (Downtown Hampton) was incorporated on August 15, 1995, to promote, develop, and market the Downtown Hampton Business Improvement District. Downtown Hampton was created by action of the City Council under provisions of the *Code of Virginia*. The City assesses an additional tax on the value of the commercial real estate located in the District to provide funds for the economic development of the District. The City Council approved the renewal of Downtown Hampton through June 2011. Downtown Hampton is included in the City's reporting entity because the resources of Downtown Hampton are for the direct benefit of the City's constituents. A copy of the separately issued financial statements for Downtown Hampton may be obtained by writing to Downtown Hampton Development Partnership, 756 Settlers Landing Road, Hampton, Virginia 23669 or by calling (757) 727-1271.

Foundation of the Virginia Air and Space Center

The Foundation of the Virginia Air and Space Center (Foundation) was formed in 1992 after construction of the Virginia Air and Space Center. The Foundation exists to carry out the charitable, educational, literary and scientific purposes of the Center. The Foundation is included in the City's reporting entity because the resources of the Foundation are significant to the City. A copy of the separately issued financial statements for the Foundation may be obtained by writing to the Foundation of the Virginia Air and Space Center, 600 Settlers Landing Road, Hampton, Virginia 23669 or by calling (757) 727-0900.

Other Related Organizations

The financial statements of the following public organizations, commissions, authorities and boards are not included in the reporting entity. These organizations are political subdivisions created under the laws of the Commonwealth of Virginia. Their governing boards are appointed, at least in part, by the City. The City's responsibility in most instances is limited to pro rata representation through appointments to the governing boards. The individual governing boards of the organizations appoint management, establish budgetary control and are accountable for their own fiscal affairs including deficits, debt service, operating costs, etc. The City is not able to impose its will on these organizations and the organizations neither provide a financial benefit nor pose a financial burden on the City.

Peninsula Airport Commission

The Peninsula Airport Commission (PAC) operates the Newport News/Williamsburg International Airport. Board membership is allocated among and appointed by the various localities. The PAC's operating and capital expenditures, including debt service, are financed by its operations and contributions from the participating localities. The City has no budgetary authority, is not responsible for deficits or debt service and cannot set rates for services or uses of the airport facilities.

Other

There are certain other agencies and commissions that service the City of Hampton and surrounding localities whose board membership is allocated among and appointed by the various localities. These agencies include: Hampton Roads Transit (HRT), Hampton Roads Planning District Commission (HRPDC), Virginia Peninsula Public Service Authority (VPPSA), Hampton Roads Economic Development Alliance (HREDA) and the Peninsula Council for Workforce Development (PCFWD). Expenditures of these agencies are financed by federal and state grants, fees, and contributions. During the year ended June 30, 2011, the City provided operating and capital support of \$3,345,834 to HRT, \$160,892 to HRPDC, \$9,750 to VPPSA, \$138,219 to HREDA and \$66,992 to PCFWD.

Jointly Governed Organizations

Hampton-Newport News Community Services Board

The City of Hampton has one jointly governed organization, the Hampton-Newport News Community Services Board (CSB). The CSB operates as an agent for the Cities of Hampton and Newport News in the establishment and operation of community mental health, mental retardation and substance abuse programs as provided for in Chapter 10 of Title 37.1 of the Code of Virginia, relating to the Virginia Department of Mental Health and Mental Retardation. The CSB designates its own management and adopts its own budget. The operations are financed principally by state and federal funds. The City provided operating support of \$1,413,162 to the CSB during fiscal year 2011.

Government-wide and Fund Financial Statements

The government-wide reporting model (Exhibits A-1 and A-2) includes financial statements prepared using full accrual accounting for all government activities. The government-wide financial statements, the Statement of Net Assets and the Statement of Activities, report information on all of the nonfiduciary activities of the City and its component units. As a general rule, the effect of interfund activity has been removed from these statements. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely primarily on fees and charges for services. The primary government is reported separately from certain legally separate

component units for which the primary government is financially accountable.

Statement of Net Assets

The Statement of Net Assets (Exhibit A-1) is designed to display the financial position of the primary government (governmental and business-type activities) and its discretely presented component units. Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense in the Statement of Activities. The net assets of a government are displayed in three categories – invested in capital assets net of related debt, restricted and unrestricted. Also included in the Statement of Net Assets is long term debt and obligations.

Statement of Activities

The government-wide Statement of Activities (Exhibit A-2) reports expenses and revenues in a format that focuses on the cost of each of the government's functions. The expenses of the individual functions are compared to the revenues directly generated by the function through user fees or intergovernmental grants.

The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment is offset by program revenues. Program revenues include charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and grants and contributions that are restricted to meet the operational and/or capital requirements of a particular function or segment. Taxes and other items that are not included in program revenues are classified as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The City reports the following major governmental funds: the General, Economic Development Special Revenue, Debt Service and Capital Project funds. The major enterprise funds are: Convention Center, The Hamptons, Virginia Air and Space Center Museum, and Wastewater Management funds.

Basis of Accounting

The basis of accounting applied to a fund and the discretely presented component units is determined by the measurement focus. Basis of accounting refers to when revenues, expenditures (governmental) or expenses (proprietary), transfers and the related assets and liabilities are recognized in the accounts and reported in the financial statements.

The government-wide financial statements, all Proprietary Funds, the Pension Trust Fund, and Discretely Presented Component Units are accounted for using the economic resources measurement focus. This measurement focus is the same as that used by commercial enterprises. This approach includes not just current assets and liabilities (such as cash and accounts payable)

but also capital assets and long-term liabilities (such as buildings and infrastructures, including bridges and roads, and general obligation debt). The accrual basis of accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

The accrual basis of accounting is followed in the government-wide financial statements, the Internal Service, Enterprise, Fiduciary Funds and the Discretely Presented Component Units. Under this method of accounting, revenues are recognized when earned and expenses are recognized when the related liability is incurred. Proprietary funds distinguish operating revenues and expenses from non-operating items. Generally, operating revenues and expenses result from services provided by or producing and delivering goods in connection with the proprietary fund's principal operations.

All Governmental Funds are accounted for using the current financial resources measurement focus and modified accrual basis of accounting. This means that generally only current assets and current liabilities are reflected on their balance sheets. Their operating statements present increases (revenues and other financing resources) and decreases (expenditures and other financing uses) in net current assets.

Under the modified accrual basis of accounting, followed by the General, Special Revenue, Debt Service, and Capital Projects Funds, revenues are recognized when they become both measurable and available to finance operations of the current year. Revenues considered susceptible to accrual consist primarily of property taxes, certain grants and sales and utility taxes. Accordingly, real and personal property taxes are recorded as revenue when levied and billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as deferred revenue. Revenues from federal, state, and other grants, used to fund specific City expenditures, are recorded at the time of receipt of notification of the grant. Revenues from general purpose grants are recognized in the period to which the grant applies. Sales and utility taxes collected by the State or utility companies and subsequently remitted to the City are recognized as revenue upon collection by the State or utility company, which is generally in the month preceding receipt by the City. Licenses, permits, fines and rents are recorded as revenue when received. Expenditures, other than interest and principal on long-term debt, are recorded as the related liabilities are incurred, if measurable. Interest and principal on long-term debt are recognized when due.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Budgets and Budgetary Accounting

The City's procedures for establishing the budgetary data reflected in the financial statements for the General Fund and School Operating Fund are as follows:

1. The City Manager submits to the City Council a recommended budget no later than April 15th, for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted by City Council to obtain taxpayer comments.
3. The budget is legally enacted through the passage of an ordinance by City Council no later than May 15th.
4. The City Manager or his designee is authorized to transfer budgeted amounts within departments within the General Fund. Revisions that alter the total appropriations for a department must be approved by City Council. Therefore, the level of control at which expenditures may not exceed appropriations is the total expenditure level of each department. Transfers within the School Operating Fund are under the control of the School Board.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and School Board Component Unit Operating Fund.
6. Budgets for the General and School Board Component Unit Operating Fund are legally adopted on a basis consistent with Generally Accepted Accounting Principles.

Budgeted amounts are as originally adopted or as amended by City Council and the School Board during fiscal year 2011. Unencumbered appropriations lapse at year-end in the General and School Operating Funds. Appropriations which are encumbered at year-end are carried forward into the following year's appropriation to allow liquidation of the encumbrances.

An annual budget is not adopted for the Debt Service Fund because effective control is alternatively achieved through general obligation bond indenture provisions. Annual budgets are not employed for Special Revenue Funds and the Capital Projects Fund because each program grant or capital project is approved separately.

General Property Tax Calendar

Real property is assessed at fair market value as of July 1 of each year; personal property and public service corporation properties (real and personal) are assessed as of January 1 of each year. Taxes are levied on a fiscal-year basis for real property and a calendar year basis for personal property. Taxes are due and payable in two equal installments on June 5th and

December 5th.

Penalties are assessed at 10% of the tax due for real estate and personal property which are not paid by the due date. Interest at 10% per year for real and personal property is charged on unpaid tax installments. A lien is recorded on all real property with delinquent real estate taxes not paid within three years.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General Fund and School Operating Fund. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed or assigned will be reported within committed or assigned fund balance, as appropriate.

Investments

Investments of the Hampton Employees' Retirement System are stated at fair value, except for short-term investments which are stated at cost. All other investments are generally stated at fair value, except for short-term cash equivalents, which are stated at cost.

Receivables

Receivables of the General Fund are stated net of an allowance for uncollectible taxes of \$1,346,882. Management has determined that the allowance is sufficient to provide for any losses that may be sustained on realization of the accounts receivable.

Inventories

The inventories reflected in the Enterprise Funds and School Funds consist principally of food items and items held for resale and are valued at cost (first-in, first-out). The General Fund's inventory consists of consumable supplies valued at cost (first-in, first-out). The Internal Service Funds' inventories consist principally of expendable items held for consumption and are valued by the average-cost method. Inventories are recognized as expenditures when consumed or sold.

Prepays

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Land Held for Resale

Land held for resale by the Industrial Development Authority is stated at cost or, if donated, at fair market value as of the date received. Development costs of the IDA are added to the cost of the land when incurred. Total land and development costs are allocated to total saleable acreage under development and are charged to expenses on a prorated basis when the land is sold.

Interfund Activity

Activity between funds that represents lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” (current portion) or “advances to/from other funds” (non-current portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as internal balances (see note 3).

Restricted Assets

Restricted assets represent the following invested assets set aside in The Hamptons (Golf Course), Virginia Air and Space Center (Museum), Convention Center, and discretely presented component unit – IDA:

	<u>The Hamptons</u>	<u>Museum</u>	<u>Convention Center</u>	<u>Component Unit - IDA</u>
Restricted Assets

	<u>\$ 645,887</u>	<u>\$ 2,385,423</u>	<u>\$ 21,010,595</u>	<u>\$ 1,337,104</u>

The assets for The Hamptons, Museum, Convention Center, and IDA are classified as restricted since their use is limited by the Bond Trust Indenture.

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and intangible assets (e.g., easements and computer software), are reported at historical cost, or estimated historical cost if actual cost is not available, less accumulated depreciation for the primary government in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets, other than computer equipment, computer software, and infrastructure assets, are defined by the City as assets with an initial, individual cost of more than \$2,500 and an estimated useful life greater than one year. Computer

equipment and computer software are capitalized when the initial, individual cost exceeds \$1,000 and \$5,000, respectively. Infrastructure assets that meet the capitalization threshold, generally \$10,000, are capitalized and reported in the government-wide financial statements. Major outlays for capital assets and improvements are capitalized as projects are constructed. Historical cost of self-constructed infrastructure includes direct labor, direct materials and overhead costs allocated based on direct labor hours charged to the project. Capital assets capitalized at a lower threshold continue to be reported on the basis of past practice. The cost of normal maintenance and repairs that do not add to the value or materially extend asset lives are not capitalized. Donated capital assets are recorded at estimated fair market value at the date of donation. When assets are retired or otherwise disposed of, the related cost and accumulated depreciation are eliminated and any resulting gain or loss is reflected as non-operating revenue or expense.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and improvements	10 - 40
Improvements other than buildings	10 - 50
Equipment and computer software	3 - 20
Exhibits	7 - 10
Infrastructure	5 - 75
Landfill	Percentage of completion

The City capitalizes interest costs on funds borrowed to finance the construction of capital assets in the proprietary funds. During fiscal year ended June 30, 2011, \$77,732 of net interest costs were capitalized in the Virginia Air and Space Museum Fund.

The Landfill in the Solid Waste fund is recorded at cost and amortized using the straight-line method based on tonnage received in relation to total expected capacity.

The Hampton Employees' Retirement System capitalizes equipment, other than computer equipment, over \$2,500. Computer equipment having a cost of \$1,000 or more is capitalized. Capital assets are recorded at cost and depreciation is recorded using the straight-line method over the estimated useful lives of the assets. The estimated useful life of equipment is 3 – 20 years.

The capital assets of the discretely presented component units – Coliseum Central Business Improvement District, Inc., Downtown Hampton Development Partnership, Inc., Healthy Families Partnership, Inc., Industrial Development Authority, and the School Board are stated at cost. Depreciation has been provided using the straight-line method over the estimated useful lives of the assets.

Fund Balance

Fund balance is essentially the difference between the assets and liabilities reported in a governmental fund. There are five separate components of fund balance, each of which identifies the extent to which the City of Hampton is bound to honor constraints on the specific purpose for which amounts can be spent. The five categories are as follows:

Nonspendable Fund Balance – Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Examples would be inventory, long term receivables, or a fund that is legally or contractually required to be maintained intact such as a permanent fund.

Restricted Fund Balance – Includes amounts that can be spent only for specific purposes as stipulated by constraints imposed by either external creditors, grantors, laws or regulations of other governments or they are imposed by law through constitutional provisions or enabling legislation.

CITY OF HAMPTON, VIRGINIA
NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued:

Committed Fund Balance – Includes amounts that can only be used for specific purposes pursuant to a formal action of the government’s highest level of decision-making authority

Authority to Commit – Commitments for specific purposes require a formal action of the City Council. A majority vote is required to approve or remove a commitment.

Assigned Fund Balance – Includes amounts intended to be used by the City of Hampton for a specific purpose but do not meet the criteria to be classified as restricted or committed. The intent should be expressed by the governing body itself or an official or committee that the governing body has delegated the authority to assign amounts to be used for specific purposes.

Authority to Assign – The City Council has delegated to the City Manager and Director of Finance the authority to assign amounts to be used for specific purposes; however, before the assigned funds can be spent, such amounts, excluding appropriations related to encumbrances that are carried forward to the subsequent fiscal year, must be appropriated by City Council.

Unassigned Fund Balance – The residual classification for the General Fund. This category represents fund balance that has not been restricted, committed or assigned to specific purposes within the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it shall be the policy of the City of Hampton to consider restricted amounts to have been spent first.

When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it shall be the policy of the City of Hampton that committed amounts would be reduced first, followed by assigned amounts and then unassigned amounts.

The City will maintain a minimum unassigned fund balance in the General Fund equal to 10% of the total revenues for the General and School Operating Funds. To the extent the minimum unassigned fund balance falls below policy, the shortfall shall be replenished over a three-year period.

Foundation of the Virginia Air & Space Center		(2,233,767)

The deficit in The Hamptons Golf Course Fund is primarily attributed to accumulated depreciation charges on capital assets and current year net operating losses. Net operating losses before depreciation are usually funded in the succeeding year by operating transfers from the General Fund. The deficit in the Foundation of the Virginia Air & Space Center is due to unanticipated federal funding shortfalls.

The net assets in the Internal Service Funds are as follows:

Fleet Management		1,134,071
Risk Management		12,776,327
Information Technology		1,304,664

Pension Expense

The City has pension plans covering substantially all City and School employees. Pension costs are accrued using actuarially determined rates, which include current costs plus amortization of prior service costs. The City's policy is to fund pension costs accrued for all plans.

Compensated Absences

It is the City's policy to permit employees to accumulate a limited amount of earned but unused annual and sick leave benefits, which will be utilized in future periods or will be paid to employees upon separation from City service. In governmental fund types, the cost of annual and sick benefits is recognized when payments are made to employees. The current and long-term liability for accrued annual and sick leave benefits at June 30, 2010 has been reported in the government-wide statements, representing the City's commitment to fund such costs from future operations. Proprietary fund types accrue annual and sick leave benefits in the period they are earned. Such benefits are included in accounts payable and other liabilities in the government-wide statements. In prior years, the General, Federal Grants, Community Development, EXCEL (Environmental Excellence for Community Enjoyment and Livability), and Stormwater Management Funds have been used to liquidate the liability for compensated absences.

Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20 *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, proprietary fund types follow all applicable GASB pronouncements as well as Financial Accounting Standards Board (FASB) pronouncements, Accounting Principles Board (APB) Opinions, and Accounting Research Bulletins (ARB's) issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements issued after November 30, 1989.

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts, which comprise each fund's assets, liabilities, fund balance or net assets, revenues and expenditures or expenses.

2. BASIS OF PRESENTATION - FUND ACCOUNTING:

The following is a description of the funds included in the accompanying financial statements.

General Fund

The General Fund is the City's primary operating fund. The General Fund accounts for all revenues and expenditures of the City, which are not accounted for in the other funds. Revenues are primarily derived from general property taxes, other local taxes, revenues from other governmental units and recovered costs. A significant part of the General Fund's revenue is transferred to other funds, principally to fund the operations of the City of Hampton Public Schools and debt service requirements of the City. Expenditures include, among other things, those for general government, public safety, highways and streets, culture and recreation, health

and human services.

Debt Service Fund

The Debt Service Fund accounts for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest. Primary resources of the Debt Service Fund are derived from transfers from the General Fund and the proceeds from the issuance of refunding bonds.

Capital Projects Fund

The Capital Projects Fund accounts for all general City and School construction projects and report financial resources that are restricted, committed or assigned to expenditure for capital outlays which are financed through general obligation debt and general operating funds, with the exception of projects related to Enterprise and Internal Service Funds.

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects.

The Federal Grants Fund accounts for revenues and expenditures of all federal, state and recovery act grants awarded to the City except the Community Development entitlement. The Federal Grants Fund also accounts for program income and matching requirements related to all awarded City grants. Federal grants received by the Component Unit - School Board are included in the discretely presented component unit.

The Community Development Fund accounts for revenues and expenditures related to entitlements received by the City under the Community Development Act of 1974, administered by the United States Department of Housing and Urban Development, to foster the development of the Healthy Neighborhoods Initiative. Other revenues include program income that is generated from repayments of loans, the sale of rehabilitated homes and the Revolving Loan Fund.

The Economic Development Fund was established to finance the costs of capital investments, improvements, expenditures and any other approved expenditure, which will assist economic development and improve the physical appearance of the City. Revenues are earned from land sales, special assessments, projects financed by the fund and rental receipts.

The Stormwater Management Fund accounts for revenues and expenditures related to maintaining the storm drainage system and the quality of our surface waters. Revenues are derived from a service charge levied on all developed property in the City.

2. BASIS OF PRESENTATION - FUND ACCOUNTING, Continued

The Pembroke Complex Fund accounts for the receipts and disbursements related to the operations of the Pembroke Community Service Center. The facility is owned by the Hampton Redevelopment and Housing Authority and maintained by the City from the rents charged to the various tenants of the building.

The Law Library Fund accounts for receipts and disbursements of funds specifically held for the purpose of purchasing law books. Revenues are derived from a \$2.00 per court case fee, which is legally mandated to support the operations of the law library,

Enterprise Funds

Enterprise Funds, (Exhibit A-6, A-7 and A-8), are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs of operating and providing services to the general public are completely or partially financed from user fees; or (b) where the governing body has determined that the periodic determination of net results of operations is appropriate for management control and accountability.

The City's Enterprise Funds account for the operations of the Hampton Coliseum, The Woodlands Golf Course, The Hamptons (Golf Course), Solid Waste, the Virginia Air and Space Center (Museum), Convention Center, Wastewater Management, and the Refuse-Steam Plant. Revenues of the Hampton Coliseum, Woodlands Golf Course, The Hamptons, the Solid Waste Fund, the Refuse-Steam Plant Fund and the Wastewater Management Fund are derived primarily from user fees. The Convention Center Fund revenues are derived from user fees and meal and lodging taxes. The Museum's operating revenue is derived from donations and user fees, including \$646,250 in federal funds from the National Aeronautics and Space Administration for educational/user fee subsidy. The Museum fund accounts for all operational and Revenue Bond Trust activity.

Internal Service Funds

The Internal Service Funds account for the services provided to substantially all City departments or other governmental units on a cost-reimbursement basis. The City's internal service funds include Equipment Replacement, Fleet Services, Risk Management and Information Technology.

The Equipment Replacement Fund owns all on-road rolling stock of the City and leases the equipment to the various operating departments. Leasing income is used for replacement of the equipment. The Fleet Services Fund accounts for the operation of the City's central automotive maintenance service facility. The Risk Management Fund accounts for the costs of providing insurance coverage and certain self-insured liabilities of the City and the School Board. The Information Technology Fund accounts for the costs of providing the following services: personal computer support, printing, mailing and telecommunications services.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations and other governmental units. The Fiduciary Funds consist of the Hampton Employees' Retirement System (HERS), Special Welfare and Other Agency Funds.

HERS pension trust fund (Exhibit A-9 and A-10) accounts for the revenues and expenses related to the City-sponsored retirement plan, which is administered by a board of trustees appointed by City Council. The Special Welfare Fund is an agency fund that accounts for receipts and disbursements for special assistance programs and activities sponsored by the City's social services department. The Other Agency Fund accounts for amounts held in trust by the City for others such as the Peninsula Drug Task Force.

3. INTERFUND BALANCES:

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" or "advances to/from other funds" in the fund statements or as "internal balances" in the Statement of Net Assets. All residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All remaining balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur and (2) payments between the funds are made.

Advances from other funds in the amount of \$4,943,016 in the Refuse-Steam Plant represent an amount payable to the Debt Service Fund. The Refuse-Steam Plant was advanced \$6,062,962 from the April 2002 and April 2005 General Obligation Bond Issues to make certain required capital improvements to its facilities. The advance is to be repaid in semi-annual installments on January 15th and July 15th, which includes interest. These installments will be used to meet a pro-rata share of the annual debt service costs on the General Obligation Series 2002 and 2005 Bonds.

These advances are excluded from governmental activities' long-term liabilities since they are eliminated against the related advances to other funds in the statement of net assets for governmental activities.

4. DEPOSITS AND INVESTMENTS:

For purposes of reporting cash flows, cash and cash equivalents include demand deposits, certificates of deposit, money market funds and repurchase agreements.

Deposits

On June 30, 2011, the carrying value of the City's deposits was \$35,341,317 and the bank balance was \$11,781,007. All of the bank balances are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") Section 2.2-4400 et. seq. of the Code of Virginia. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial institutions may choose between two collateralization methodologies and depending upon that choice will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. The Commonwealth of Virginia Treasury Board is responsible for monitoring compliance with the collateralization and reporting requirements of the Act and notifying local governments of compliance by financial institutions. All deposits are considered fully collateralized.

Investments

Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of states and local governments, obligations of international development banks, "prime quality" commercial paper and certain corporate notes, repurchase agreements, certificates of deposit in United States banks, State Treasurer's Local Government Investment Pool (LGIP), and the State Non-Arbitrage Program (SNAP).

Investments for the City are reported at fair value. The State Treasurer's Local Government Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

HERS Investments

Investments are stated at fair value except for short-term investments. These are reported at cost, which approximates fair value. The fair value of mutual funds traded on a national securities exchange is determined by using the last reported sales price on the last business day of the fiscal year; listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked prices. The Bank of New York Mellon serves as custodian of HERS investments.

Investment Policy

The City's investment policy requires that all investments and investment practices meet or exceed all statutes and guidelines governing the investment of public funds in Virginia, including the Code of Virginia and the guidelines established by the State Treasury Board. State statutes limit investment in commercial paper to no more than 35% of the total portfolio, with not more than 5% per issuer. The City's investment policy addresses credit risk, custodial credit risk,

interest rate risk, and concentration of risk, in which instruments are to be diversified and maturities timed in accordance with anticipated needs in order to minimize any exposure to fair value losses. The City's policy does not address foreign currency risk.

HERS Investment Policy:

The Code of the City of Hampton authorizes the System to invest in obligations of the United States or its agencies or the City, corporate bonds, federal insured mortgages, common stock and certain other qualified investments. All investments shall be clearly marked to indicate ownership by the System. The HERS investments are held by the Bank of New York Mellon.

Credit Risk

The City's investment policy requires all bonds or notes of the Commonwealth of Virginia, states, or political subdivisions of any state of the U.S., or asset-backed securities have at least AAA by two rating agencies, one of which must be Moody's Investor Services (Moody's) or Standard & Poor's (S&P). Repurchase agreements must be collateralized by Treasury or Agency obligations of which the market value is at least 102% of the purchase price of the security. Certificates of deposit of domestic banks must have at least A-1 rating by S & P and P-1 by Moody's for maturities less than 1 year, and AA by S & P and Aa by Moody's for maturities over one year and not exceeding 3 years. Commercial paper must be rated "prime Quality" with at least a P-1 rating by Moody's, A-a rating by S & P, and Duff and Phelps within its rating of D-1. Corporate notes and bonds must have a rating of at least A by S & P, and A by Moody's. The City also invested funds during the year with the State Treasurer's Local Government Investment pool, a 2a7 like pool, and the Virginia State Non-Arbitrage Program (VaSNAP), both rated AAAM by Standard & Poor's.

U. S. Government Securities

The City invested in U. S. Government Securities which consisted of FHLB, FNMA, FFCB, and FHLMC discount notes. U. S. Government Securities are subject to interest rate risk.

Custodial Credit Risk

All securities purchased for the City shall be held by the City or by the City's designated third party custodian. Securities are only purchased from brokerage firms/institutions that are under the Commonwealth of Virginia's supervision and located in the Commonwealth of Virginia.

Interest Rate Risk

As a means of limiting exposure to fair value losses arising from rising interest rates, the City manages the investment maturities of operating funds to coincide with the City's projected cash flow needs. Bond proceeds are invested in compliance with the specific requirements of the bond covenants.

Section 148 of the Internal Revenue Code of 1986 requires public entities to refund interest earned in excess of interest paid over the first five years outstanding on tax exempt borrowings. The regulations are applicable to borrowings incurred subsequent to August 1986. The City has calculated the rebate due as of June 30, 2011 was the settlement date, and reflected the liability, if any, in the governmental activities column of the Statement of Net Assets.

In prior years, the General Fund has been used to liquidate the net pension obligation and net OPEB obligation.

The Hamptons Golf Course Refunding Revenue Bonds, Series 1999 (Bonds), were issued by the City on August 31, 1999 with an interest rate of 6%. At June 30, 2011, \$580,000 in Bonds remains outstanding.

The unamortized amount deferred on the refunding of \$3,788 is reported in the accompanying financial statements as a reduction of bonds payable and is being charged to operations through the year 2013, using the interest method.

On February 19, 2004, the City issued \$12,875,000 in Museum Revenue Refunding Bonds (Bonds) with interest ranging from 2% to 5%.

Details at June 30, 2011 are as follows:

	<u>Series 2004</u>
Outstanding debt	\$4,325,000
Interest rate	5%
Years of maturity	2012 – 2014

On June 2, 2011, the City issued \$52,460,000 in Convention Center Refunding Revenue Bonds, Series 2011 with interest ranging from 2.922% to 5.125%. The proceeds of the bonds were used to refund a portion of the City's Convention Center Revenue Bonds, Series 2002.

The net proceeds of the refunding bonds of \$67,288,946 (net of underwriter's discount and issuance costs of \$483,778) were deposited with U.S. Bank, Richmond, Virginia (Trustee) under a refunding trust agreement dated as of June 2, 2011. The Trustee used such proceeds to purchase direct, non-callable obligations of the U.S. Treasury including state and local government series (collectively, government obligations). The government obligations will mature and bear interest at times and in amounts sufficient to pay debt service requirements on the refunded bonds until their redemption date.

The City obtained the necessary consents to amend certain legal provisions associated with the Series 2002 Bonds with the execution of the 2011 Refunding Bonds. Specifically, the Operating Reserve was reduced from \$16 million to \$8 million. The \$8 million released from the Operating Reserve was used as an equity contribution to reduce the par amount of the 2011 Refunding Bonds. The refunding generated net present value savings of \$4.68 million or 7.6% of the refunded par amount. The \$8 million equity contribution is excluded from the \$4.68 million net present value savings. Debt service on the Series 2002 Bonds will decrease by an average of \$940,000 per year (approximately \$6.68 million) in fiscal year 2012 to fiscal year 2029. The advance refunding resulted in an economic gain of \$935,000. This transaction is in substance a defeasance of debt and accordingly, the refunded bonds (of which \$61,395,000 remain outstanding at June 30, 2011), have been removed from the financial statements and the

Convention Center Revenue Bonds (Bonds) in the amount of \$106,305,000 were issued November 1, 2002 with interest ranging from 3.50% to 5.25%. The proceeds of the Bonds were used to finance the cost of the construction of a convention center and to retire a \$7,585,000 Revenue Bond Anticipation Note issued in connection with the project and to pay interest on the Series 2002 Bonds. The bonds are payable solely from and collateralized by, revenues derived by the City from ownership and operation of the project.

9. DEFINED BENEFIT PENSION PLANS:

The City contributes to two pension plans for its employees, the Hampton Employees' Retirement System (HERS) and the Virginia Retirement System (VRS). HERS covers all full-time salaried employees who were first hired prior to July 1, 1984 and VRS covers all full-time salaried employees.

Plan Description - HERS:

HERS is a single employer public employee defined benefit pension plan established and administered by the City to augment the retirement benefits provided to full-time permanent City and School Board employees under the Virginia Retirement System (VRS). The authority to establish and amend benefit provisions of HERS is governed by statute as set out in Chapter 28 of the Code of the City of Hampton, Virginia. HERS is considered part of the City of Hampton's financial reporting entity and is included in the City's financial reports as a pension trust fund. HERS issues a publicly available financial report that includes financial statements and required supplementary information for HERS. The financial report may be obtained by writing to City of Hampton, Finance Department, 22 Lincoln Street, Hampton, Virginia, 23669 or by calling (757) 727-6230.

Funding Policy - HERS:

The contribution requirements of plan members, the City of Hampton and the Component Unit – School Board are established and may be amended by City Council. Plan members do not contribute. The City and Component Unit – School Board are required to contribute an actuarially determined amount.

Annual Pension Cost and Net Pension Obligation – HERS:

For fiscal year 2011, the City of Hampton's annual pension cost and net pension obligation were as follows:

9. DEFINED BENEFIT PENSION PLANS, Continued:

The annual required contribution was determined as a part of the July 1, 2009 actuarial valuation using the entry age normal cost method with normal cost calculated on an aggregate basis. The actuarial assumptions included (a) 7.5% investment rate of return and (b) projected salary increases of 5% per year. The actuarial assumptions include a future inflation rate of 3.5% a year. The plan was amended in 2000 to provide for a one-time cost of living adjustment of 3.0% to members who retired prior to July 2, 1998. Effective July 1, 2001, the Board authorized a one-time 3.5% cost of living adjustment to members who retired prior to July 1, 1999. The actuarial value of assets was determined using market value, but with the difference between expected and actual return recognized over a five-year period. The unfunded actuarial liability is amortized on a level dollar basis. The remaining amortization period at June 30, 2011 was 12 years. The amortization period is closed.

Summary of Significant Accounting Policies - HERS

Basis of Accounting:

The financial statements of HERS are prepared using the accrual basis of accounting. Employer contributions are recognized as revenues in the period in which the contributions are due. Benefits and refunds are recognized when due and are payable in accordance with the terms of the plan.

Method Used to Value Investments:

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. The fair value of U.S. government and corporate bonds and stocks traded on national securities exchange is determined by using the last reported sales price on the last business day of the fiscal year. Investments that do not have an established market are reported at estimated fair value.

Plan Description - VRS:

The City of Hampton and Component Unit - School Board contribute to the Virginia Retirement System (VRS), an agent and cost-sharing multiple-employer defined benefit pension plan administered by the Virginia Retirement System (System).

All full-time, salaried permanent (professional) employees of participating employers are automatically covered by VRS upon employment. Benefits vest after five years of service credit.

9. DEFINED BENEFIT PENSION PLANS, Continued:

Members earn one month of service credit for each month they are employed and their employer is paying into the VRS. Members are eligible to purchase prior public service, active duty military service, certain periods of leave and previously refunded VRS service as a credit in their plan.

VRS administers two defined benefit plans for local government employees – Plan 1 and Plan 2:

- Members hired before July 1, 2010 and who have service credits before July 1, 2010 are covered under Plan 1. Non-hazardous duty members are eligible for an unreduced retirement benefit beginning at age 65 with at least five years of service credit or age 50 with at least 30 years of service credit. They may retire with a reduced benefit as early as age 55 with at least 10 years of service credit or age 50 with at least five years of service credit.
- Members hired or rehired on or after July 1, 2010 and who have no service credits before July 1, 2010 are covered under Plan 2. Non-hazardous duty members are eligible for an unreduced benefit beginning at their normal Social Security retirement age with at least five years of service credit or when the sum of their age and service equals 90. They may retire with a reduced benefit as early as age 60 with at least five years of service credit.
- Eligible hazardous duty members in Plan 1 and Plan 2 are eligible for an unreduced benefit beginning at age 60 with at least 5 years of service credit or age 50 with at least 25 years of service credit. These members include participating law enforcement officers and firefighters. They may retire with a reduced benefit as early as age 50 with at least five years of service credit. All other provision of the member's plan apply.

The VRS Basic Benefit is a lifetime monthly benefit based on a retirement multiplier as a percentage of the member's average final compensation multiplied by the member's total service credit. Under Plan 1, average final compensation is the average of the member's 36 consecutive months of highest compensation. Under Plan 2, average final compensation is the average of the member's 60 consecutive months of highest compensation. The retirement multiplier for non-hazardous duty members is 1.7%. At retirement, members can elect the Basic Benefit, the Survivor Option, a Partial Lump-Sum option Payment (PLOP) or the Advance Pension Option. A retirement reduction factor is applied to the Basic Benefit amount for members electing the Survivor Option, PLOP or Advance Pension Option or those retiring with a reduced benefit.

Retirees are eligible for an annual cost-of-living adjustment (COLA) effective July 1 of the second calendar year of retirement. Under Plan 1, the COLA cannot exceed 5.00%; under Plan 2, the COLA cannot exceed 6.00%. During years of no inflation or deflation, the COLA is 0.00%. VRS also provides death and disability benefits. Funding Policy - VRS:

Plan members are required by Title 51.1 of the *Code of Virginia* (1950), as amended, to contribute 5% of their annual reported compensation to the VRS. The 5% member contribution has been assumed by the City of Hampton and the Component Unit - School Board. In addition, the City of Hampton and the Component Unit - School Board are required to contribute the remaining amounts necessary to fund its participation in the VRS using the actuarial basis specified by the *Code of Virginia* and approved by the VRS Board of Trustees. The City of Hampton's and Component Unit - School Board's nonprofessional employees contribution rates for the fiscal year ended 2011 were 20.34% and 15.48% respectively. The Component Unit - School Board's contributions to VRS for professional employees for the fiscal years ending June 30, 2011, 2010, and 2009 of \$9,521,688 (8.93%), \$12,781,750 (13.81%) and \$16,508,388 (13.81%) respectively, were equal to the required contributions for each year.

Annual Pension Cost and Net Pension Obligation:

For 2011, the City of Hampton's and Component Unit - School Board's nonprofessional employees annual pension cost and net pension obligation were as follows:

	<u>City of Hampton</u>	<u>Component Unit- School Board</u>
Annual required contribution	\$ 16,368,660	\$ 1,165,979

The schedule of funding progress, following the notes as required supplementary information, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

10. DEFERRED COMPENSATION PLAN:

The City provides an approved deferred compensation plan, under Section 457 of the Internal Revenue Code, which is administered by the ICMA Retirement Corporation. All City employees are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, ICMA Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death or unforeseeable emergency. However eligible active plan participants may borrow funds from their plan account balance.

The City provides an approved governmental profit-sharing plan & trust, under Section 401 of the Internal Revenue Code, which is administered by the ICMA Retirement Corporation. The City Manager and/or Interim City Manager are eligible to participate. The Internal Revenue Code requires that the plan assets and income attributed to those assets be held in a trust for the exclusive benefit of the participants and/or beneficiaries. All amounts of employees' compensation deferred under the plan are deposited with the plan trustee, ICMA Retirement Corporation, for management and investment. The plan trustee holds all assets of the plan, maintains accounting of each plan participant's accumulated assets and makes distribution to participants in accordance with the plan document.

11. JOINT VENTURE:

The Hampton Roads Regional Jail Authority (the Authority), a political subdivision of the Commonwealth of Virginia, was created through an agreement by the Cities of Hampton, Newport News, Norfolk and Portsmouth (the member jurisdictions). The Authority has the responsibility to finance the acquisition, construction and operation of a regional jail facility for the benefit of the member jurisdictions. Each member jurisdiction is responsible for paying the Authority a per diem charge, as established in the Authority's annual budget, for the care, maintenance and subsistence of prisoners from the member jurisdictions. The member

Separate financial statements are available from the Hampton Roads Regional Jail Authority at 2690 Elmhurst Lane, Portsmouth, Virginia 23701-2745.

12. COMMITMENT AND CONTINGENCIES:

Grants:

The City receives grant funds, principally from the U.S. government, for construction and various other programs. Expenditures from certain of these funds are subject to audit by the grantor, and the City is contingently liable to refund amounts received in excess of allowable expenditures. In the opinion of the management of the City, no material refunds will be required as a result of expenditures disallowed by grantors.

Leases:

The City leases various types of equipment under capital lease agreements (see Note 8). Under an operating lease, the City leases the Pembroke Community Service Center building from the Hampton Redevelopment and Housing Authority at an annual rent of \$343,872. In addition, the City leases space under operating leases for use as branches of the City's public library.

Self-Insurance:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City established a Risk Management Fund (internal service fund) to account for and finance its uninsured risks of loss except for medical claims which are accounted for in the General Fund. The City and the Hampton City Schools are self-insured for a portion of their risk up to the following self-insured levels per occurrence:

	<u>City</u>	<u>Hampton City Schools</u>
Workers' Compensation	\$ 550,000	\$ 550,000
General Liability	1,000,000	1,000,000 (Auto)
Property Coverage	100,000	100,000
Medical Claims	100,000	per person/ plan year

The City purchases commercial insurance for claims in excess of coverage provided by the funds and for all other risks of loss. Settled claims have exceeded this commercial coverage in one of the past three years.

All funds of the City participate in the program and make payments to the Risk Management and General Fund based on historical cost information. The unrestricted net assets of \$12,767,942 at June 30, 2011 are designated as a reserve for claims in the Risk Management Fund. The City accrues claims and judgments as incurred by a review of all claims on a case-by-case basis. Claims incurred, but not reported, were considered in the determination of the claims liability.

Fiscal Year 2009	(8,883)	13,657,170	13,650,772	(2,485)

Various claims and lawsuits are pending against the City. In the opinion of City management, the resolutions of these cases would not involve a substantial liability to the City.

Letters of Credit:

SunTrust Bank issued two Standby Letters of Credit totaling \$3,500,000 on the behalf of the IDA in connection with its commitment under certain agreements for the development of the Bass Pro Project. During fiscal year 2005, Old Point National Bank issued a standby Letter of Credit in the amount of \$3,000,000 on the behalf of the IDA in connection with its commitment under certain agreements for the National Institute of Aerospace Associates project. The City has agreed to pay the bank upon each drawing by the beneficiary under the Letters of Credit. During the fiscal year ended June 30, 2011, no draws were made under the Letters of Credit.

Capital Projects

Commitments for completion of capital projects in the Governmental Activities authorized at June 30, 2011 are \$10,546,959.

13. POST-RETIREMENT HEALTH CARE BENEFITS:

Plan Description:

The City and Component Unit - Hampton City School Board (School Board) administer a single-employer defined benefit healthcare plan in addition to the pension benefits described in Note 9. The City and School Board Other Postemployment Benefit Plans provide post-retirement health care benefits, in accordance with the Personnel Policies and Procedures, to all full-time, salaried permanent employees and public safety officers who retire on or after attaining age 55 and 50

respectively, with at least 5 years of service, as well as to employees who qualify for a disability retirement. Currently, 766 City retirees meet these eligibility requirements. Hampton City School Board employees accumulate an unlimited number of sick leave days. The School Board's post-retirement health care plan allows employees at retirement, instead of taking payment for these sick leave days, the employee may elect to take a specified credit toward their post retirement health insurance costs. During fiscal year 2011, 132 employees were participating in this plan and the cost was \$358,369. Separate, stand-alone statements are not issued for this plan.

Funding Policy:

The City Council and Hampton School Board has the authority to establish and amend the funding policy of their respective plans. The employer's contribution ranges from 0% to 100% of the premiums based on the retiree's years of continuous health care coverage and the health care option selected by the retirees. The employer contributions are financed on a pay-as-you-go basis. During fiscal year 2011, the City contributed \$2,414,243, or approximately 52% of total premiums for post-retirement health care benefits. Plan members receiving benefits contributed \$2,229,626 or approximately 48% of total premiums. Member contributions are 2.8% of covered payroll. The School Board contributed \$515,065 in fiscal year 2011.

Annual OPEB Cost and Net OPEB Obligation:

The City and School Board's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding, that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) on an open basis over thirty years. The following table shows the components of the City and School Board's annual OPEB cost for the year, the amount actually contributed to the plans and changes in the net OPEB obligation:

Actuarial Methods and Assumptions:

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, following the notes as required supplementary information, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2011 actuarial valuation for the City and School Board, the projected unit credit (PUC) cost method was used. The objective under PUC is to fund each participant's benefits under the plan as they would accrue. The unfunded actuarial liability is amortized as an open level dollar amount over a period of 30 years. A discount rate of 4% per annum net of expenses was used for an unfunded plan. Healthcare cost trend rates ranged from an initial rate of 10% for 2011 to an ultimate rate of 5.25% for the 2026 fiscal year. Retiree medical contributions are assumed to increase at the same rates as incurred claims.

14. LEASE RECEIVABLES:

The IDA issued Revenue Bonds (Note 8) to construct the Peninsula Workforce Development Center (PWDC). Under terms of agreements with this organization, revenue generated from the lease of the building is used to make the bond payments with the lease term being equivalent to the life of the bond. As of June 30, 2011, future lease receivable is \$9,900,593 from PWDC.

CITY OF HAMPTON, VIRGINIA

14. LEASE RECEIVABLES, Continued:

The minimum lease payments for the next five years are:

<u>June 30,</u>	<u>PWDC</u>
2012	\$ 990,059
2013	990,059
2014	990,059
2015	990,059
2016	990,059

Upon completion of PWDC, \$815,183 in unearned interest income was used to offset direct costs. This amount will be allocated over the life of the lease at \$40,466 per year. As of June 30, 2011, the balance of unearned interest income associated with the PWDC is \$427,548.

15. RESTATED BEGINNING FUND BALANCES, BEGINNING OF YEAR:

Due to the implementation of GASB Statement No. 54 the Excel Fund and Pearl Young Fund were merged into the general fund. This change had the following effect on fund balances of the major and non-major funds as they were previously reported:

General Fund

Fund Balance, beginning of year	\$ 101,370,264
Adjustment for implementation of GASB Statement No. 54	<u>375,825</u>
Fund Balance, beginning of year, as restated	<u><u>\$ 101,746,089</u></u>

Other Governmental Funds

Fund Balance, beginning of year	\$ 6,263,542
Adjustment for implementation of GASB Statement No. 54	<u>(375,825)</u>
Fund Balance, beginning of year, as restated	<u><u>\$ 5,887,717</u></u>

16. SUBSEQUENT EVENTS:

On or about October 24, 2011, SunTrust Bank terminated its note arrangement with the Foundation of the Virginia Air and Space Center and has demanded full payment. The City is not obligated for repayment under this loan. Management of the Foundation is requesting additional funding from various outside agencies and has instituted various cost-saving measures. Although the ultimate impact to the Foundation's financial position has not been determined, there can be no assurances that these results will be achieved. Management for City believes there will be no effect to the City's financial position.

Reconciliation of the School Board's Combining Statement of Revenues, Expenditures and Changes in Fund Balances to the Combining Statement of Activities (Exhibit A-12)

Net change in fund balances - total school funds	\$ (602,917)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. (Note 6)	
Capital acquisitions	1,615,197
Depreciation expense	(4,038,126)
In the statement of activities, the loss on disposal of capital assets is reported. However, in the governmental funds, only the proceeds from sale increase financial resources. The change in net assets differs from the change in fund balance by the net book value of the capital assets abandoned. (Note 6)	(2,734)
Revenues in the Statement of Activities that do not provide financial resources are not reported as revenues in the funds.	
Capital lease financing for the acquisition of capital assets does not provide current financial resources. Capital assets acquired by capital lease financing are not reported as expenditures in the governmental funds. (Note 8)	71,233
Decrease in other post employment benefit liability reported in the Statement of Activities does not provide current financial resources and therefore is not reported in the governmental funds. (Note 8)	(1,909,418)
Increase in compensated absences reported in the Statement of Activities does not provide current financial resources and therefore is not reported in the governmental funds. (Note 8)	1,282,495

Notes:

(A) General

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards of the City of Hampton, Virginia and Component Unit School Board. The City of Hampton single audit reporting entity is defined in Note 1, Reporting Entity, to the City's basic financial statements.

The Schedule of Expenditures of Federal Awards does not include federal funding of \$228,000 in the General Fund. This amount represents indirect costs from other federally assisted programs administered by the City and is included in the federal revenue.

(B) Basis of Accounting

The accompanying Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting.

Note:

- (1) The significant increase in invested in capital assets, net of related debt for fiscal year 2006 is due to the capitalization of infrastructure prior to fiscal year 2002 under the transition provisions of GASB Statement 34.
- (2) The decrease in business-type activities for fiscal year 2008 is attributable to the reclassification of HRHA from a blended component unit in the business-type activities to a discretely presented component unit
- (3) The increase in capital assets, net of related debt for fiscal year 2011 is due to the related debt decreasing at a greater rate than the decrease in net assets.
The decrease in restricted assets is due to the decrease in debt service.

Notes:

¹ The City was able to lower the real estate tax rate from \$1.14 per \$100 assessed value in 2007 to \$1.06 per \$100 assessed value in 2008 due to significant growth in assessments.

² In fiscal year 2009, Personal Property Tax Relief Act was reclassified as noncategorical state revenue, decreasing the General property taxes in this table.

³ Meal and lodging tax rates were increased from 4.5% and 5.5%, respectively, in fiscal year 2002 to 6.5% and 8.0%, respectively.

The additional 2% increase in the meal and lodging tax rates are dedicated to the operation of the City's Convention Center.

⁴ Other taxes include: short-term rental, recordation, lodging and transit, amusement, motor vehicle, bank stock, license - pari-mutuel, public right of way, and franchise taxes.

⁵ Other taxes increased by \$4.2 million due to a special assesment on the Peninsula Town Center, CDA.

Notes:

¹ Public service assessed values are furnished by the State Corporation Commission of Virginia with no indication of assessment rate or actual value. The state mandated conversion of personal property to real estate for taxing purposes whereby personal property values are converted at 5% a year over a 20-year period.

² The state requires all real estate to be assessed at 100% of its appraised value. There is no state statute or city charter limitation on the tax rate. The latest State Department of Taxation comparison of sales to appraisal indicates a true rate of 100%

Financial Compliance Reports for Federal Funds

**Independent Auditors' Report on Compliance With Requirements
That Could Have a Direct and Material Effect
on Each Major Federal Program and on Internal Control Over Compliance
in Accordance With OMB Circular A-133**

Honorable Mayor and Members of City Council
City of Hampton, Virginia

Compliance

We have audited the compliance of the City of Hampton, Virginia (the "City") with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on its major federal programs for the year ended June 30, 2011. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing an opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of the City Council, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**Independent Auditors Report on Internal Control over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

Honorable Mayor and Members of City Council
City of Hampton, Virginia

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hampton, Virginia (the “City”), as of and for the year ended June 30, 2011, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated November 23, 2011. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and *Specifications for Audits of Counties, Cities and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia.

Other auditors audited the financial statements of a certain component unit of the City as described in our report on the City’s financial statements and Note 1 to the financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Downtown Hampton Development Partnership, Inc. were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests discovered no instances of noncompliance and other matters that are required to be reported in accordance with the *Government Auditing Standards*.

This report is intended solely for the information and use of the City Council, management, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
